Profile

As an aspiring Full Stack Developer and a dedicated student, I am passionately pursuing opportunities to kickstart my career in the world of web development. My primary focus is on becoming a proficient Full Stack Developer, and I bring a strong foundation in JavaScript, Web Development, and a deep enthusiasm for programming in C and Java.
I am committed to lifelong learning and staying updated with the latest developments in the field of web development. I look forward to contributing my energy, dedication, and skills to a forward-thinking organization during a summer internship opportunity.

Education

Bachelor of Computer Application   Apr 2020 - Present
D.K.College, Dumraon
University:-Veer Kunwar Singh University ,Arrah.

Online Courses and Self-Study (Online Learning Platforms)
- **Front-End Web Development (JavaScript, HTML, CSS)**
- Completed comprehensive online courses covering front-end web development, including JavaScript programming, HTML markup, and CSS styling.
- Developed various web projects to apply the acquired skills, including responsive web design and interactive user interfaces.
- **Java Programming**
- Completed an extensive online course on Java programming, covering fundamental concepts, object-oriented programming, and application development.
- Developed Java applications and projects to reinforce knowledge, including GUI-based applications and data management systems.
- **C Programming**
- Engaged in self-study of the C programming language through online resources and textbooks.
- Implemented coding exercises and personal projects to strengthen C programming proficiency.
- **Data Structures in Java**
- Studied data structures and algorithms in Java through online courses and practical exercises.
- Designed and implemented data structures such as linked lists, trees, and hash tables in Java, focusing on algorithm efficiency and problem-solving skills.

Personal details

Date of birth
November 7, 2002

Place of birth
Bihar

Gender
Male

Nationality
Indian

Role: Full Stack Developer

Expertise: Frontend & Backend Programming

Skills: JavaScript, Web Development,HTML, Cascading Style Sheet(CSS)

Programming Languages: C, Java

Interests: Enthusiast in C & Java

Objective: Seeking summer internship opportunities

Skills

Programming Languages: JavaScript, C, Java

Front-End Development: HTML, CSS

Back-End Development:

Project Highlights:
- **JavaScript Web Application (Personal Project)**
- Developed a dynamic web application using JavaScript, HTML, and CSS, showcasing user-friendly interfaces and interactive features.
- Implemented client-side validation and real-time data processing, enhancing user experience.
- **Java Inventory Management System (Course Project)**
- Collaborated on a team to design and build an inventory management system using Java.
- Developed user interfaces, integrated a relational database, and implemented data retrieval and manipulation functionalities.
- **C Programming Challenges (Self-Initiated)**
- Completed a series of C programming challenges from various online platforms to strengthen problem-solving and coding skills.
- Tackled problems ranging from basic algorithms to data manipulation.

Employment

Student
No formal work experience as a fresher in the field of Full Stack Development.
Task Management App (Academic Project)
- Collaborated on a team project to create a task management web application.
- Implemented both front-end and back-end functionality using JavaScript, Node.js, and MongoDB.
- Designed user interfaces for task creation, assignment, and tracking.
- Gained experience in full-stack development and database management.

Personal Portfolio Website
- Designed and developed a personal portfolio website to showcase technical skills and projects.
- Utilized HTML, CSS, and JavaScript for the front-end.
- Created a responsive design for optimal viewing on various devices.

Internships

As an ambitious and dedicated student eager to jumpstart my career, I am actively seeking an internship opportunity to gain practical experience, expand my skill set, and make a meaningful contribution to your organization. While I may not have previous internship experience, I am driven by a strong desire to learn, grow, and excel in Coading

Node.js, Express.js

Database Management: MongoDB

Languages

English

Hindi

Bengali

Hobbies

- Coding and Programming: Enthusiastically engage in coding challenges and personal coding projects in C and Java to continually enhance technical skills.

- Web Development: Enjoy creating and maintaining personal websites and web applications as a hobby, experimenting with new technologies and design concepts.

- eading: Love exploring technical books and articles related to software development and staying up-to-date with the latest trends and technologies in the field.

- Mentoring: Occasionally volunteer to mentor and guide fellow coding enthusiasts, helping them improve their programming skills.
